Installation

Lark Technology has a well-established team of experienced installation engineers, trained to the highest standards.

Working in the food, pharmaceutical, water and utilities industries we are very aware of site requirements in each industry, and pride ourselves on our health and safety working practices.

We also work to international management systems ISO9001 and occupational health and safety standard OHSAS18001.

All work is fully documented and certified to NICEIC standards as required. We are also members of the Electrical Contractors Association (ECA).

If it is electrical installation you need, don't look any further - for high standards at competitive rates, Lark Technology can satisfy your particular needs.

If you have any requirements for electrical installation or need support for existing equipment please contact us at the above address.
